Best Choice for: First distance driver, tailwind drives, downhill distance, long turnover drives, rollers.

About the Valkyrie

The Valkyrie is a World Record holding distance driver. It is an easy to learn disc, and in lighter weights will give newer players extra distance. Lighter weights also give players extreme range when thrown downwind, while maximum weights can give excellent upwind distance. The Valkyrie's high speed turn and flight characteristics make it a great choice for long range turnover shots and rollers.
