Innova - Star Cro - Mid-Range Disc

Price per Unit (piece): \$17.99

Classification: Mid-Range Disc

Diameter: 21.2cm

Weight Range: 165 to 175 grams

Brief Description: The Cro flies slightly overstable. The flight is comparable to that of a Roc or a Shark, but a little faster and with less glide.

Available Plastics: Star

Best Choice for: Consistent flights, power players, breezy days, sidearm shots, medium range headwind drives.

About the Cro

The Star Cro is a new addition to our small diameter Mid-Range line-up. This disc flies slightly overstable and is well suited for both backhand and forehand shots. The stability of the Cro is comparable to that of a Roc or a Shark, but it will fly a little faster and with less glide. The rim depth and shape offer a smooth release.
