Price per Unit (piece): \$17.99

**Classification:** Putt & Approach Disc

**Diameter:** 21.2 cm

**Weight Range:** 165 to 175 grams

**Brief Description:** The Aviar is the number one putter in disc golf. Having won more World Championships than all other putters combined. Aviar is our most popular disc.

**Available Plastics:** DX, Classic (Stiff), KC Pro, JK Pro, Pro, Champion, Star P&A, Star

**Best Choice for:** Durable putter, short to medium approaches, wooded and rocky courses.

#### About the Star Aviar Driver

The Star Aviar Driver is made from the Big Bead driver mold. This is the same mold used for the KC and JK Aviar. It has the same flight characteristics of these ever popular discs plus the additional bonus of Star plastic. Star plastic gives the Aviar Driver more durability and offers players another grip option. Great for drives, approaches and putts. Available in 165 to 175 grams.
