Gateway - Evolution Element - Midrange Disc

Price per Unit (piece): \$15.00

The Gateway Element is a great all around midrange disc. This disc will hold any angle you put it on with unbelievable glide. If you throw it flat it will go extremely straight with very little fade at the end of its flight. Anhyzers will keep turning, and hard-thrown hyzers will flip up to flat.

In the ["E" plastic](#) this is the Gateway midrange you have been waiting for. Super durable and perfectly stable with awesome glide.

22 cm diameter, available in weights up to 180 grams.
