# Gateway - Super Soft Wizard - Putt & Approach Disc

**Price per Unit (piece): \$13.00**

The highly popular [SuperSoft Wizard](#) is a softer, gripper version of our "S" plastic. The flight properties are the same as the Wizard, although the softer version of the "S" plastic can be expected to break in quicker and behave slightly more understable at high speeds.

The SuperSoft Wizard is rapidly becoming a very popular putter for its great feel and true putting stability. Pick one up today, you'll see for yourself.
